

## Dancraft Laser Cutting Services

Dancraft has over 20 years experience in manufacturing acrylic display products. We produce point-of-sale displays as well as precision plastic component parts for various industries.

### Laser Capabilities:

- **LASER CUTTING:** acrylic up to 3/8" thick, styrene, PETG, ABS, coro-plast, leather, fabrics, veneers and thin woods.
- **LASER ENGRAVING:** acrylic, wood, leather and anodized metals.
- Part sizes up to 38" x 50"
- Please provide files in one of the following formats: Corel Draw X3, PDF, and DXF (preferred)
- Dancraft can produce a drawing from your sketch or sample part.
- Sub-assemblies: we can bend, bond, and assemble acrylic parts for larger projects.
- Dancraft can provide consistent quality, close tolerance parts at competitive prices.

### Examples of our work:

	<p>Custom Acrylic Humidification Systems</p> <ul style="list-style-type: none"><li>• 1/4" thick smoke acrylic, water tight chambers,</li><li>• Close tolerance cut outs for electrical components.</li><li>• Operations for completion include: laser cutting, precision assembly, countersinking, counterbores, water testing</li></ul>	
<p>Service tag holder, and custom lock washers.</p>	<p>Custom bottle shape with graphic application and bending</p>	<p>Different sizes and shapes of custom laser parts for various customers.</p>
